

WXMate.com - Live Sirius Marine Weather

AirGator, Inc.

WXMate SDR-730e Sirius Marine Weather Receiver

Price: \$999.00

The WxMate Hardware kit includes:

- **AirGator 730e Sirius Data/Audio Receiver - Ethernet Kit**
- **SDR-730/e SDR, Power, Audio and *LAN Cables, mounting kit**
- **SRA-40 Antenna with mounting Kit and 25' cable**

To be used with compatible software and hardware including:

- Nobeltec Admiral and VNS MAX Pro Marine Charting Software
- Furuno VX2 and 3D Chart Plotters
- Raymarine E-Series & G-Series Chartplotters
- Northstar 6100 Chartplotter
- Other Sirius Marine Weather Compatible systems

***AirGator recommends adding the crossover adapter if you want to have a direct connection from the Receiver to your computer. The cable that comes with the Receiver is a straight through Ethernet cable that is meant to be connected to a Switch/Hub.*
